The Gates

West Side Story meets Cabaret meets Chicago.

Post war Chelsea, London: bohemian, broad-minded and wild. A world of its own, the habitat of artists, musicians and theatricals: Quentin Crisp, Joyce Grenfell, and Joan Collins are regular visitors. Set in The Gateway's, a small private member's club situated in a cellar of a shop on the Kings Rd, the first ever lesbian club in the world, *The Gates* is a star crossed lovers' story which unfolds against the backdrop of gangster war fair. How will the glamorous Butch and Femme patrons of *The Gates* react to the tragic death of a beloved friend? Is this the end of their sanctuary and community, or the beginning of a brave new world?

MUSIC

The sound of *The Gates* is influenced heavily by 1950s big band swing, jazz, gospel and the blues of Black America. Artists like the Rat Pack, Bobby Darin and Nina Simone combine with musical influences such as *Chicago*, *West Side Story* and *Cabaret* to create the sense and feeling of the 1950s underworld from a contemporary perspective.

PLANS

We are at the very beginning of the development process and this is your opportunity to support at a very early stage the progress of this innovative and vital work. The Company will make best endeavours to ensure there will be a performance of *The Gates*. The Company cannot guarantee when this will be or what format this will take either as a mainstream professional production or as a large scale community event. Due to the large amounts of funds required to stage the production it may take several years for us to raise the required funding to progress to full production.

DISCLAIMER

The Gateways opened in 1945 in the basement of a shop on the Kings Road where it prospered until its closure in 1985. Whilst the setting and some of the characters in the musical did exist and live, for the purposes of this story all events, characterizations and representations are completely fictitious.
